

UI上でのCSVファイル読み込み

CSVファイルの内容をeFromへ表示する

- eForm画面からCSVファイルを読み込み、eFrom画面へ表示(Javascript)

The diagram illustrates the process of loading CSV data into an eForm. At the top, a Notepad window titled 'csvtest.csv - メモ帳' displays the CSV content: 'AAA-AAAAA-AAA10,jp_support@agilepoint.com,XX:XX:XX:XX:XX:XX'. A red box highlights this line. A large red arrow points from this line to the eForm fields below. On the left, a file icon for 'csvtest.csv' is shown with a blue arrow pointing to the 'RequestID(申請番号)' field. The eForm fields are as follows:

Field Label	Field Value
RequestID(申請番号)	0005-00002
File Selection	ファイルを選択 csvtest.csv
CommonName(コンピュータ名)	AAA-AAAAA-AAA10
Email(配布先メールアドレス)	jp_support@agilepoint.com
AuthID(MAC/IMEI)	XX:XX:XX:XX:XX:XX
Manager	@AgilePoint.com
Formula 1	@agilepoint.com

At the bottom of the form are 'Submit' and 'Cancel' buttons.
